

Local Storm-Drain and Waterlogging Records Request

Smart India Hackathon problem statement 26085: Urban Flood Nowcasting System (Drainage and Rainfall Coupling).

Date: 29 September 2026

To: Deputy Commissioner / Executive Engineer (Storm-Water Drainage), Najafgarh Zone, Municipal Corporation of Delhi (MCD)

Contact / submission route: dyancong@mc.org.in | MCD Citizen Call Centre: 155305

Subject: Request for existing local storm-drain GIS, maintenance, and event records - Dwarka/Najafgarh pilot

Dear Sir/Madam,

I am a student at NSUT, Delhi, working on Smart India Hackathon problem statement 26085: Urban Flood Nowcasting System (Drainage and Rainfall Coupling). The attached AOI map is an approximate project rectangle. Please confirm whether MCD owns or maintains local road drains, inlets, underpasses, or waterlogging assets within it. The MCD monsoon list includes Najafgarh Zone locations such as Nasirpur-Palam Road; it does not establish ownership for every asset in the AOI.

We request copies of existing records only. If another department owns a trunk drain or road asset, please identify the responsible division and forward or redirect this request.

Requested information

- Existing local stormwater-drain/inlet/manhole GIS or CAD with geometry, connectivity, asset ID, dimensions, rim/invert levels, catchment links, outfall, and ownership where recorded.
- Available road-level terrain/underpass low-point surveys and maintenance records, including desilting dates, blockage/condition observations, pumps, and known drainage complaints.
- Historical waterlogging/flood reports or sensor records with exact location and date/time; include measured water depth, measurement method, units, uncertainty, and observed-dry records only where actually measured.
- Original coordinate reference system, vertical datum, units, resolution/accuracy, schema, record date/status, access costs, attribution, and permission for student research and public SIH demonstration.

Please advise the correct MCD email/inward channel and the zone/division data custodian for submitting or collecting the records. We will not convert incident-only complaints into measured depth labels.

Sincerely,

Harsh Jha

NSUT, Delhi

MCD monsoon waterlogging/nodal-area list: https://mcdonline.nic.in/portal/downloadFile/drain_wise_nodal_officers_for_the_purpose_of_desilting_to_address_the_water_logging_issues_26031801270838.pdf.

Submission note: Attach 06_Dwarka_Najafgarh_Approx_Pilot_AOI_Map.pdf. The zonal mailbox is listed by the Government of Delhi district portal; ask the zone to confirm the correct engineering/data custodian for the requested assets.

DWARKA MOR / NAJAFGARH - APPROXIMATE PROJECT AOI

Study area reference

Project: SIH 26085
Dwarka Mor / Najafgarh pilot
District: South West Delhi

Approximate request bounds
West: 77.015 E
East: 77.050 E
South: 28.590 N
North: 28.628 N
Coordinate system: WGS 84 / EPSG:4326
Approx. footprint: 3.4 x 4.2 km

Map legend

Red outline: request boundary
Orange/red line: larger mapped road class
Grey-blue line: other mapped road

Data source

Road context: project-supplied OpenStreetMap extract.
Snapshot date is not recorded in source metadata.
Map is not a drain survey, DEM, or flood-depth layer.

IMPORTANT

Approximate project rectangle only; not an official hydrologic catchment or surveyed asset boundary.
